Translated with [www.DeepL.com/Translator](http://www.DeepL.com/Translator) (free version)

Dear parent(s)/carer(s),

What a pleasure it is to welcome you to our school every day. Over the past few weeks, I am getting to know everyone better and better. All the teachers, the building and all the children, it is nice to get to know you as parents better and better too.

It is not just a building; our school is a place where dreams grow, friendships blossom and knowledge flourishes. We believe that education goes beyond books and lessons. Our school is a home away from home, a community where we work together for our children's future.

Our dedicated teachers, with their passion for teaching, are ready to guide your children on their journey of discovery and growth. They are here not only to impart knowledge, but also to inspire, support and lovingly guide your children on their learning journey.

Our pupils are the true pearls of our school. With their cheerfulness and smiles, they bring a touch of joy to our classroom every day. They are curious, creative and ready to explore the world. Together, we will help them unlock their potential and shape them into the leaders of tomorrow.

We cordially invite you to be involved in our school community and be part of this exciting adventure. Let's work together to create an environment where your children can thrive and grow. Keep an eye on our newsletter for updates, events and stories from our school. We look forward to a great school year full of wonderful experiences and growth.

Together, we will make every day at our school a day full of smiles and success!

With warmest regards, also on behalf of the team,

Toyah Vogels  
Director IKC Wereldwijs

## Education content-related continuous line IKC-wide

Regular

Dear parents/carers,

Time is flying by, it's almost autumn holidays already. How nice it is to be part of this beautiful school. I already know more and more children by name and who belongs to which parents. So don't hesitate to come to the door in the morning for a chat, I would like to get to know you better.

Classes are back in full swing, themes are starting and Children's Book Week is already behind us. It is good to see that the children have started enthusiastically again and are happy to be at school. After the autumn holidays, group 8 already starts the test period and we are already one step closer to Secondary Education. The first messages from the secondary schools to be allowed to do trial lessons have already been sent around, it is nice for the children to have a look at the secondary schools this way.

A school cannot run without the involvement of parents. We are very much looking for parents who would like to help us in the parent council. What does a parents' council do?

The main objectives of the parents' association are:

- Co-organising all kinds of activities at school;
- Promoting the interests of children and parents;
- Encourage parents to help out at school;
- Managing the parental contribution.

If you would like to know more about the parents' association, you are welcome to join. If you are not always available, no problem, every little helps! You can register with me:

[c.haan@ikcwereldwijs.nl](mailto:c.haan@ikcwereldwijs.nl)

For now, I hope to see you soon at the door for a chat,

Christianne Haan  
Site manager regular

Wereldwijzer 2- October 2023

Group 1-2 regular

In groups 1/2 we had a visit from Arie the letter canary. Arie visits us every week. He brings a letter with him. The children playfully learn new sounds/letters. The children enjoy the lessons with Arie. We have already learnt the letter "d" of roof and the letter "s" of street.

ITK (International languages classes)

Semson

This year, we started using a new maths method SemSom. This method is for students doing arithmetic at grade 1 to 4 level. The method makes great use of movement and other activities to teach basic arithmetic skills. This year, we will try out whether this method fits with working in the language classroom. SemSom also includes a software programme.

For the older pupils, we have purchased the software programme Matific. We find this an attractive programme for pupils working at grade 5-8 level. In this method, pupils can also calculate in their own language. This is nice, because then the pupils can show what they can already do in their own language.

Wereldwijzer 2- October 2023

## Internal supervision ITK

The internal supervision for the Language Classes this year is in the hands of Martine Dorreboom and Brenda Uittenbroek. Martine can be reached every Monday and Tuesday for IB matters and Brenda every Tuesday and Friday. Brenda is in charge of group green, red, white and grey and Martine of group yellow, blue, purple and orange. Over the past few weeks, we have been busy with the intakes of new pupils and group visits. We also conducted a workshop at the Meer Primair study day and attended a meeting of the Assend Education Partnership.

## Arithmetic exercise programmes

Besides our maths methods Semsom (groups 1, 2 and 3) and Pluspunt (groups 4 to 8), we use digital practice programmes at school. A fun and pleasant way of repeating and/or computerising the material.

Groups 3 to 5 use the Rekenblobs programme. In this programme, arithmetic up to 10, up to 20, up to 100 and up to 1000 can be practised. But also, for example, the tables and subtables. It contains exercises on time, but also exercises where the children can work on their maths technique in peace.

Grades 6-8 also use arithmetic blobs but are mainly on Matific. Matific makes arithmetic operations understandable for children. What exactly is a fraction? What happens to a large fraction? All areas of arithmetic are covered within Matific.

Did you know that children can also use these programmes free of charge at home via their school account? This way, they can continue practising at home to become even better at arithmetic.

Does your child not know the login code? Feel free to ask your child's teacher!

Have fun in the digital world of arithmetic Blobs and Matific.

## Coffee moment

On 25 September was the first coffee moment with parents. The turnout of parents was so large that we actually couldn't fit any more in the coffee room! Sjoerd Mercera, from Meerwaarde, told us all about the support Meerwaarde can offer on all fronts. The fact that Meerwaarde also offers language courses and language coaching for both adults and children was not yet covered. He will come back for this later in the year.

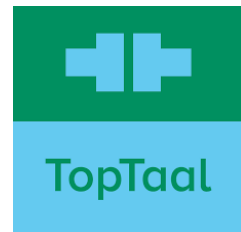

## Wereldwijzer 2- October 2023

The next coffee moment is on 22 November. This one will be about food and the (sometimes difficult) choices you can make. Because: is a glass of orange juice a good and healthy choice, or not? Do you always have to eat healthy? How much does a child actually eat? It will be a fun and active meeting. You will get new information about this soon and you can also read it on the flyers in the neighbourhood. Interested parties who do not (yet) have children at IKC Wereldwijs are also welcome.

## TopTaal- Parental & school/Dutch language course

Last school year, TopTaal's follow-up/new course could not take place because a suitable teacher was not found. Fortunately, in the new school year it did succeed! Harold van Heck started teaching every Tuesday morning to a group of enthusiastic parents at the beginning of October. The lessons will be held in the school library for the time being, but after the autumn holidays the parents can use a classroom in the annex building. The last lesson will be in early April.

Unfortunately, it is now no longer possible to join this group. It is uncertain for now whether we will be able to start another new group. Should this be possible again, we will of course keep you informed.

We wish the current group of parents lots of fun and success!

Wereldwijzer 2- October 2023

## Staff

### Introducing:

#### SKH

My name is Charlotte Seinstra, I am 26 years old and I will be working at SKH childcare Wereldwijs as a BBL Training Pedagogical employee from 4 September. I enjoy working with children and helping them in their creative development. I myself am very creative in the field of Music and dance. I have been teaching piano for 5 years, mainly to children with great pleasure. I have also danced at high level competitions in the Ballroom and Latin category and done a lot of Jazz-Showdance. With these experiences, I hope to further develop them creatively in my work with children. I also really enjoy painting, crocheting and crafts.

#### ITK

My name is Melanie van Nee. I am 24 years old and come from Hoofddorp. Since this year I have been living on my own with my boyfriend, a nice new challenge.

I also get to work at IKC wereldwijs as a teaching assistant, so that's a new step too. I am really looking forward to it!

In my spare time I like to play tennis, I am sporty. Besides playing tennis, I like to make music and sing. This always makes me very happy.

Hopefully you now know a bit about who I am. If there are any questions, I am open to them.

### Found objects

There is a table at the entrance to the conierge's room. Under the table is a large transparent bin containing found objects.

If you or your child has lost something, you can go there to look.

Through the main entrance, walk past the stairs to the end. The last room on the left belongs to the conierge.

Wereldwijzer 2- October 2023

## **Organisational matters**

### **New pupils and departing pupils:**

#### Regular:

New pupils:

Omar and Haitem: welcome to group 1-2!

#### Language classes:

After the holidays, a number of pupils will go to another school; David, Rashed, Mohamed, Hakan, Emma, Daif, Sherin, Ahmad, Forqan, Raneem, Tasnim, Yasmin, Baraa.

Nil will graduate from iTK to our regular primary school. We wish them lots of fun at their new school!

New pupils will also start after the holidays:

in Red: Azza and Yeva

in Grey: Gowtham

in Yellow: Tarsila and Erail

in Blue: Raghad, Mustafa and Rustam

in Orange: Wiktoria and Mary

Welcome to IKC Wereldwijs!

## SKH

### Nursery

We have had the theme of living, the children have been playing nicely with the house. Also, since this week we have a trainee, her name is Karla. She will support us in the baby group.

The vertical group is also focusing on the theme of living, we played with the doll house. We stamped grandpa baking beard's bubbles. And made beautiful houses. We also read aloud on the theme mouse looks for a house.

Wereldwijzer 2- October 2023

Preschool

A day at the Preschool. The children are enjoying various activities.

## De school is weer begonnen, dus ook de pauzesporten...

Vanaf de 2<sup>e</sup> schoolweek is Team Sportservice weer van start gegaan met het project Pauzesport. In dit programma zorgen de sportdocenten, op verschillende dagen in de week weer voor een gevarieerd aanbod op het schoolplein waarin de kinderen worden geprikkeld om lekker te bewegen en te spelen. Tijdens Pauzesport staan er verschillende thema's centraal, zoals samenwerkingsspelen, winst en verlies, meedoen en gezonde leefstijl.

**Kijk snel op het bord of op de poster wanneer wij bij jullie school op het plein staan in de pauze.**

# De kinderkunst dagen

In de schoolvakanties  
Hoofddorp | 10:00 - 16:00 uur

[cpunt.nl](http://cpunt.nl)

## De kinderkunstdagen

Kom je ook leuke, creatieve en uitdagende workshops volgen in de schoolvakantie? Samen met leeftijdsgenootjes en de docenten van het kunstencentrum van C., maken we er een gezellige boel van. Grote schilderijen maken, grappige theaterscènes spelen, muziek maken op instrumenten die nog niet eerder bestonden of gewoon lekker dansen. Je kunt het zo gek niet verzinnen. Kortom, wil je lol, kunst en nieuwe vrienden of vriendinnen maken? Kom dan naar de Kinderkunstdagen.
