

## Dear parents and guardians,

After a period of cold, snow, and icy conditions, we're slowly heading towards spring and better weather. Despite the cold, several groups have enjoyed outdoor activities. Playing in the snow, of course, but also a visit to Jeugdland, for example. The children, and their teachers too, are thoroughly enjoying this. We believe it's important to continue learning outside the classroom.

Several groups have had musical lessons recently. Some groups performed the story of Peter Pan, while the older groups immersed themselves in the world of Grease. This resulted in spectacular performances, to which you, as parents, were also invited. Many parents took advantage of this opportunity to watch their children perform. We hope you enjoyed it as much as we did. Not all groups have had their turn yet; musical lessons for the other groups will follow in May and June.

In December, the Education Inspectorate visited our language classes. They visited lessons, reviewed our policy plans, and spoke with teachers, management, students, and parents. After this inspection, the inspectorate concluded that the quality of education in the language classes is adequate. We are very pleased with this. It represents recognition and appreciation for all the efforts of our colleagues in their daily work. It was also very important to us to hear that the group of parents is very satisfied with the school.

Kind regards,

On behalf of the IKC Wereldwijs team

## Agenda:

- **Wednesday, February 18:**  
Study Day (No School)
- **Friday, February 20:**  
Report to regular primary school.  
Invitation to register for report conversations in the Parro app,
- **Monday 23 to 27 February:**  
Spring break.

## Did you know?

- That Carnival starts on February 15th?
- Tuesday, March 17th marks the beginning of Ramadan, "Ramadan Mubarak," and it will also be Chinese and Korean New Year?
- San nin faai lok (新年快樂): Happy New Year in Cantonese.
- Xīnnián kuàilè (新年快乐): Happy New Year in Mandarin.
- Saehae bok mani badeuseyo (새해 복 많이 받으세요): Happy New Year in Korean.

## Place bicycles in the bicycle racks

We ask everyone to always place their bikes in a bike rack. Sufficient additional bike racks have now been added, so it's no longer necessary to store bikes separately or in other locations.

New bicycle racks have been placed on the right side next to the bicycle shed and there are also racks at the car park next to the Nieuwe Silo.

By neatly placing bicycles in the racks, everyone can easily access their bicycle and we reduce the risk of damage.

Could you also discuss this with your child(ren) at home? Thank you in advance for your cooperation.

All bicycles neatly in the rack

## Safe on the bike

After the summer holidays, your child in Year 8 will cycle independently to secondary school. That's quite exciting, because letting your child go in traffic isn't easy. Good preparation helps you do this with confidence. The VO Gids, in collaboration with the Ministry of Infrastructure and Water Management, has created a special page with tips, a short quiz, and practical information about cycling safely in traffic. It's a handy resource to browse together with your child.
