Wereldwijzer 2- November 2021

Dear Parents, Caregivers,

The first appearance in the group has already taken place. Nice to be able to show you how we design our education at IKC Wereldwijs and to take you along in our development to provide students with appropriate education. Afterwards you could enjoy fresh coffee and tea on our coffee cart in the playroom to catch up with other parents.

Also this week a dance performance "dancing around the world" took place from our cultural education where the students rehearsed a dance related to a country. You saw that and it looked fantastic! All the students beamed!

We also do everything we can to give our school more visibility in the neighbourhood. A new logo has been created and unveiled for the language classes. You can see that at the entrance to the language classes. We are very proud of that!

We have also started a facebook and an Instagram account where we post activities or other fun photos. You can find us on social media under IKC Wereldwijs (Hoofddorp). We hope you will all follow us.

Finally, I would like to ask everyone again to come on time. The regular students start at 8.30 am and the language class students at 8.45 am. Unfortunately, if it happens more often, we will have to pass it on to compulsory education. You may then be called up by the attendance officer. So please come on time that also saves disturbances in the group.

Sincerely, also on behalf of the team,

Ronith Root

Interim director IKC Wereldwijs

Social and emotional development

During this period, the groups work hard on the various disciplines.

In addition to the cognitive development of the students, we believe that good social-emotional development is of great importance. Children learn and develop best when they feel good about themselves and feel safe at school.

During this period, the teachers fill in observation lists regarding the social-emotional functioning of the students at school. Pupils from group 5 also complete lists themselves with which they can indicate how they experience school.

We discuss the results and the resulting recommendations for action as a team. Based on this, we set out the lines for the coming period.

Towards a healthy school

In week 38, healthy relationships and sexuality classes took place. Our vision for these lessons is as follows: When we communicate about healthy relationships and sexuality, we at IKC Wereldwijs keep an eye on everyone's own standards and values. During these lessons we treat each other in a respectful and loving way, so that everyone feels safe.

From week 46 onwards, the children will again receive school fruit on Wednesdays, Thursdays and Fridays. We also encourage healthy food and snacks. Please also take this into account if you are allowed to treat.

Because our school pays attention to these themes, the school is eligible for a "Healthy school" vignette.

What does the calculation coordinator do?

From this school year we will be working with a math coordinator at IKC Wereldwijs. The math coordinator ensures that the school as a whole does its best to improve math education, so that the students can develop optimally in this area. The coordinator encourages and supports his colleagues in teaching the lessons and investigates what materials are needed, for example, to be able to give the lessons even better. For example, you may have heard your child talk enthusiastically about a time-keeping lesson where each student had a small clock, a lesson about a kilometer or decameter in which they looked in the square with a measuring wheel or measuring tapes to see how far that really is whether the lesson about a dm³ where exactly, but also exactly 1 liter of water fit. By being active from group 1 to group 8, the children learn to count even better.

This is of course just one example, but together with the team, the math coordinator is committed to even better math education at IKC Wereldwijs. In this way we continue to develop together and your child will reap the benefits!

Week of media literacy:

The Week of Media Literacy will take place from 5 to 12 November 2021. At our school, group 8 participates in the MediaMasters. This is a great online platform, in which a theme is central for 5 days. You can read more information on [Mediamasters.nl](https://www.mediamasters.nl)

For example, during media literacy classes, your child learns to think critically with regard to what they see online (think of Youtube, TikTok and Instagram, how do you deal with this safely and sensibly?). Your child will learn about the difference between real and fake news, take a look at how media changes over the years and so much more. In short: media literacy prepares our students for the future. We hope that you will also talk about this topic with your child at home.

First "View in the group":

How nice to see you back in the school. There was a great turnout. It was nice to see that the students were able to show their parents where they are in the classroom and what they are learning. Afterwards we experienced the coffee moment in the teacher's room as pleasant. Take some time to talk about our children. We hope to see you again soon at the next "View in the group" moment.

Dancing around the world

Last week the students of IKC Wereldwijs danced with the Art Brigade the world around and they will also do it next week. In this spectacular dance project, each group learns a dance, appropriate to a country/culture. In this way, the students are introduced to quite a few countries in a cheerful and healthy way.

During the two weeks while the Art Brigade is at school, the teachers provide background information about the culture of dance and music in the country/continent of origin based on the teaching materials. For this, the Art Brigade has flowboards full of videos and other visual material that have to do with the music and dance from the culture in question.

Last week the language classes already showed their performance, Thursday 4 November it's the turn of the regular groups!

Wereldwijzer 2- November 2021

Language classes

Staal

This year we started with the Staal voor Spelling method in the Language Classes. An important part is that a short dictation takes place every day. It is okay if children misspell a word. Then we look exactly why you write the word that way. Different categories of words are treated, for example the chop word. You chop the word into pieces (sounds) and write the letters as you hear them. For example dance; d-a-n-c-e.

Test weeks

There will be test weeks this and next week. Not all students take the same tests. This depends on the level and age. Pupils who have just started and do not yet speak much Dutch, of course, do not take tests yet. We do most tests when a student has been at school for 20 weeks (six months) and 40 weeks (1 year). The results of the tests are compared with the goals of the student. The teacher then has a student meeting with the internal counselor to discuss the development of all students. After the test weeks, the teacher will also invite many parents for a parent meeting to discuss the results.

Human Resources

Return maternity leave

Miss Anneloes and Miss Marielle T. (regular) will return from maternity leave on 15 and 22 November. Miss Kim will communicate to the groups involved what their return will look like.

Veerle Verwer ITK yellow

Miss Bettina works 4 days. The 5th day will be done by teacher Veerle in the coming weeks. She will introduce herself below.

Hello everyone! My name is Veerle and I am 20 years old.

I am in my last year of pabo. In addition to my studies, I work here at IKC Wereldwijs. I also do the minor physical education with which I can give gym lessons. Besides my education I like to read and bake!

New and departing students

Regular:

New students

We welcome: Jealynn, Yasmine, Anas, Sevim and Aymen I group 1-2. Sanam welcome to group 3. We wish you a nice time at our school.

The doors of IKC Wereldwijs will be open on Monday 29 November from 9:00 am to 10:00 am to all parents who are looking for a daycare center, playgroup or primary school for their child. If you have acquaintances or family with young children who are looking for a nice daycare or school for their child, please inform them about our open morning. During this morning, the team leader of the children 0 to 4 years old and the education team leader will give a tour of the building. There is also an opportunity to ask questions. Of course there is a cup of coffee or tea ready. Last week you also received the flyer in your mail.

POSITIEF OPVOEDEN

Soms is opvoeden een gevecht. Dan kan de cursus Positief Opvoeden ondersteuning geven.

Daar leer je oorzaken van lastig gedrag te herkennen en gewenst gedrag te stimuleren om zo problemen te verminderen. Ook als je meer wilt weten over opvoeden of Positief Opvoeden is de cursus geschikt. Deelname is gratis voor inwoners Haarlemmermeer.

De cursus wordt gegeven volgens de Triple P-methode, Positief Pedagogisch Programma. Dit programma is 25 jaar geleden in Australië gestart en wereldwijd een succes. Het programma leidt tot een vermindering van gedrags- en emotionele problemen bij kinderen en helpt ouders zelfverzekerd en rustig te zijn.

Bekijk hier [een filmpje](#) over de cursus positief opvoeden 0-12

De cursus wordt gegeven volgens de vijf basisprincipes:

1. Kinderen een veilige en stimulerende omgeving bieden
2. Kinderen laten leren door positieve ondersteuning
3. Een aansprekende discipline hanteren
4. Realistische verwachtingen hebben
5. Goed voor jezelf als ouder zorgen

De cursus bestaat uit vier wekelijkse groepsbijeenkomsten van twee uur. Daarin leer je opvoedingsvaardigheden, stimuleren van de ontwikkeling van je kind, omgaan met het probleemgedrag en handvatten die je in veel situaties kunt gebruiken. Elke groep bestaat uit maximaal 12 deelnemers.

Tijdens de bijeenkomsten wordt gebruik gemaakt van filmpjes van situaties uit de praktijk. Ook krijg je een praktisch werkboek mee. Hierin staan opdrachten voor thuis die je helpen de vaardigheden onder de knie te krijgen.

De Wereldwijzer

Wereldwijzer 2- November 2021

Na de eerste vier de groepsbijeenkomsten ga je thuis aan de slag en word je thuis gebeld door de begeleiders om te bespreken hoe het gaat. Tenslotte volgt een laatste bijeenkomst ter afsluiting.

Aanmelden

Deelnemen aan de cursus is gratis voor inwoners Haarlemmermeer . Je kunt je [hier online](#) aanmelden of een e-mail sturen naar cursus@vrk.nl. Komt u met 2 personen dan s.v.p. beide apart aanmelden. Op deze cursus zijn de volgende [voorwaarden](#) van toepassing.

Online cursus positief opvoeden

- De Positief opvoeden oudercursus is ook individueel online te volgen. In je eigen tempo volg je de acht modules over verschillende onderwerpen.

Dit varieert van het stimuleren van goed gedrag en ervoor zorgen dat boodschappen doen leuk is, tot het omgaan met ongewenst gedrag en ongehoorzaamheid.

- In elke module zie je videofilmjes met demonstraties van positieve opvoedvaardigheden. Er zijn opdrachten om deze vaardigheden te gebruiken bij de dagelijkse uitdagingen van het opvoeden. Je werk wordt automatisch opgeslagen in een persoonlijk [werkboek](#).
- Ook zijn er 2 belmomenten met een trainer van de cursus om eventuele vragen te bespreken.
- Zodra je module 8 heeft afgerond, ontvang je via e-mail een opvoedcertificaat.
